THINGS FROWNED UPON BY MANAGEMENT

The following items are of particular concern to the owners of the Kansas Division.

Use of uncoupling sticks to move cars. (Corollary: don't park cars such that they foul adjacent track.)

Attempting to uncouple car(s) while engine is moving.

Switching at speeds greater than 15 mph.

Failing to follow signal.

Being in a big hurry.

Be wary of giving unsolicited critique.

Failure to think about what you need to say before placing a call to the Dispatcher.

No food or drink in the layout area.

In short, giving no attention or thought to the prototype regarding how a job is done and why it is done the way it is done both for efficiency and safety. (Ok, I know other than Rule G, the no food or drink thing is not prototypical.)
